ID number for the vehicle. Use this when quoting to us a vehicle you are interested in.

Fuel type. "P" is for petrol, "D" is for diesel. Some auctions don't include this information, so we assume the vehicle runs on petrol.

AC is for air conditioner. AAC is for automatic air conditioner. It would be assumed that higher-priced vehicles would have AC, since Japan can be very hot in summer.

- Grade 5 As new condition, no dents and scratches
- Grade 4.5 Excellent condition, almost no dents and scratches
- Grade 4 Good condition but may have a few slight dents and scratches needing minor attention
- Grade 3.5 Fair condition with some dents and scratches that may require repairs
- Grade 3 Average condition with obvious dents and scratches requiring repairs
- Grade 2 Below normal condition but drivable
- Grade 1 Bad condition and needs work
- Grade 0 Been in an accident, but may be drivable
